

PRIVATE 1 on 1 BALAYAGE OR FRENCH CUTTING CLASSES:

This type of class will be full hands on and tailored to your specific needs. All class materials will be provided. Class also includes a light meal, beverages and a complimentary gift.

The French Hair Cutting class will be a little bit back and forth between me demonstrating and the student practicing on their mannequin. I will go over two popular haircuts, a long haircut and a short cut. We will go over using the shape of the head and the shape of the face for sectioning, and then go over the different angles to use for each cut. We will also go over finishing the haircuts and some french blow dry skills as well. Student is required to provide their own mannequin head and stand. A Complimentary French Cutting Gift for the student is Included.

For the ***Sunlights Balayage Class*** we will start with theory, then move into demonstration on a mannequin. After a short break, student will practice what they learned on their own mannequin. We will go through the different techniques together. I will observe and help each student to make sure they are understanding and feel comfortable, before moving to the next technique. Use of a mannequin head is provided. Complementary Balay Box for the student is Included. If student has taken at least 1 of my Balayage classes in the past, using a live model may be an option for class upon discussion.
